

## 2003-47

I am writing in opposition to Court Rule #2003-47. I am a sixty yr. old G.M. retiree, and I have asbestosis. I sleep every night with the aid of a breathing machine and when I walk up a single flight of stairs I have to stop and catch my breath. There is nothing scarier then not being able to breath.

Please do not remove working peoples right to hold corporations accountable.

Thank You
